

Download WebPack For Version 2020.1 (This is **Not Compatible** Lab Computers in Room 211):

Xilinx provides an Installation and Licensing Guide that gives a more condensed version of these instructions in addition to other useful information.

Note: If you use a MAC, you will need to use a windows emulator and install the tool there. I have not experimented with the in linux installation but that may work on the MAC. Please let me know if that is an option.

Note: If you use a Ubuntu, please see the Ubuntu instructions “Vivado in Ubuntu”) in the in the lab assignments folder.

1. Navigate your browser to <https://www.xilinx.com/support/download.html>. Start the Vivado Webpack download by selecting the windows self extraction installer.
- 2.

Vivado Design Suite - HLx Editions - 2020.1 Full Product Installation

Important Information

Vivado Design Suite 2020.1 is now available:

- Ability to select the full image or selected products as part of Web installer
- Address map enhancements provide Realtime error highlighting and cross probing
- Nested DFX further extends the flexibility of DFX solutions
- Report QoR Suggestions predicts up to 3 custom strategies for Improved performance
- Power Rail based reporting now available

We **strongly recommend** to use the web installers as it reduces download time and saves significant disk space.

Please see **Installer Information** for details.

Note:

- Download verification is only supported with Google Chrome and Microsoft Internet Explorer web browsers.
- Beginning this release, the Single File Download and the Webinstaller supports all products. Vivado Lab Solutions and Document Navigator are included in both the Single File Download and Webinstaller packages.

Download

- When this is complete, click on the download button and the download will start. The download folder should have the following file.

- Temporarily, you will need to make an exception for the Vivado software since it will attempt to access the internet during installation.

6. Double click on the file and it will start to unexpand. The following should appear on the screen.

7. Hit the next key and this window will pop-up please use the same login and password as the one you used to download the file. (use the download and install now option)

Accept all the licensing agreements.

8. The product selection page should appear

9. Select the Vivado HL WebPACK option.

10. Just use all the default settings

11. Hit next and let the installation process begin. This will take approximately 30 minutes or more.
So sit back and enjoy.
